

Ready, Set, Action, are the words synonymous to the Filming, TV Entertainment and Music industries. They are also the same words you want to hear from your logistics partner when a critical delivery of theater to theater film print is required.

Action, Coordination and Communication is the life line to all aspects of the entertainment industry. There is no margin for error when successfully supporting Security Screenings, Replacement Reel distribution, Merchandising, Promotional campaigns or coordinating equipment for Film Festivals, to launch a new film release. This is why so many entertainment production executives rely on Axis Global's single source logistics solutions.

Axis Global has specialized in providing time critical deliveries within the entertainment industry for the past 25 years and that its unmatched expertise and personal attention is essential when it comes to designing and implementing a Customized logistics solution that provides you with shipment control and transparency of your time critical shipments.
