

**AXIS GLOBAL LOGISTICS WILL PROVIDE INFORMATION
ABOUT ITS TIME-CRITICAL TRANSPORTATION SERVICES
AT EYE BANKING ASSOCIATION OF AMERICA MEETING**

Maspeth, N.Y., June 6, 2012—Axis Global Logistics will provide information about the wide range of logistics services that it provides to the eye banking, laboratory and corneal transplant sectors at the 51st annual Eye Bank Association of America (EBAA) meeting which is being held at the Westin Diplomat in Hollywood, Florida from June 20-23, 2012.

At the EBAA meeting Axis will discuss its time-critical logistics services and explain how they are specifically designed to meet the exacting and highly-specialized needs of the eye banking, laboratory and corneal transplant sectors. Axis offers these sectors flexible, around-the-clock collection and delivery as well as expedited services such as Next Flight Out, Air Charter and On Board Courier. These services are built on a network of Axis agents who are experts in handling these types of delicate and perishable shipments.

“Axis has a thorough understanding of the needs of the eye banking, laboratory and corneal transplant sectors,” said Brian Harvey, Axis’ Vice President of National Sales and Marketing. “We have the experience and the systems in place to ensure that this precious cargo is delivered on-time and in perfect condition.”

The EBAA annual meeting has an attendance of over 300 eye bank executives, hospital development coordinators, ophthalmologists and technicians. Over 95% of the eye banks in North America are represented at this meeting.

Headquartered in Maspeth, New York, Axis Global Logistics designs and implements supply chain solutions for companies in a variety of industries. Axis specializes in sensitive, time-critical shipments that require a high-degree of personal service. The company has a National Fulfillment Center in New Jersey and distribution and warehouse facilities at strategic locations across the United States, Canada, Europe and Asia—along with more than 800 Axis agents worldwide.
